Uninterruptible power supply with integrated battery module. The STEP-BAT/LI-ION/18.5DC/46WH battery module can be re-ordered separately.

Product Description

UPS modules with integrated energy storage are particularly space saving: UPS module and energy storage are combined in one housing. It's just a case of connecting a power supply upstream.

Your advantages

- ✓ Stable supply of sensitive loads, thanks to the regulated output voltage
- ✓ Safety ensured, thanks to the integrated protective circuit and energy storage temperature monitoring
- ✓ Quick and easy installation, thanks to integrated energy storage
- ✓ Battery operation can be stopped via remote contact
- ✓ Flexible assembly – can be snapped onto the DIN rail or screwed onto a level surface
